

Torontos Are N. H. A. Champions—Orillia Won Junior O. H. A.—Ritchie-Wolgast To-night

Canadian League Adopted a New Schedule Yesterday

Changes Made in Several of the Dates of Opening Games—Six Umpires Signed Up.

After a session which lasted nearly five hours at the Prince George Hotel, Toronto, yesterday afternoon, the delegates representing the clubs in the Canadian League finally adopted a schedule for the forthcoming playing season. Some changes were made in the draft submitted by President Fitzgerald. Toronto and St. Thomas were apparently the only clubs that were satisfied with the dates allotted them. Even Ottawa got most of the plums, having been given less than two weeks open, and had a mild objection to some of the dates. The delegates were not inclined to take Mr. Hart, who recommended the championship meetings. There was a disposition to do the same thing, with the result that what at first seemed hopeless to them, was eventually accomplished, and the revised schedule sent every one home happy.

President Fitzgerald was in the chair, with these delegates present:

Ottawa—M. T. Bryce.
Montreal—George O'Neil, T. J. O'Connor.
London—John H. A. Pearson.

Brantford—T. Nelson.

St. Thomas—C. Stansley.

Waterloo—J. W. Hart.

Hamilton—A. L. Garthwaite, M. M. Robinson.

Toronto—P. Kerwin.

A communication was read from Secretary Farrell, of the National Association, concerning the application of the Canadian League for a class B classification on the ground that the league did not have a population of 400,000 as required by the rules. As Toronto belongs to the population of 1910 the club was given a hearing. The delegates thought that the classification ought to be obtained by appealing to the National Commission, and the matter was left in the hands of the president.

It was decided that the league should be allowed to use 100 season passes. Ottawa, London, Erie and Hamilton 50, and Brantford, St. Thomas and Peterboro 25.

President Fitzgerald announced the appointment of these umpires:

J. M. Flynn, Buffalo, N. Y., who will report June 1; J. J. Walsh, Wilkesboro, N. C.; W. E. Bedford, New York City; Harry Neary, Jameson, Ontario; W. H. Miller, Erie, Pa.; and W. H. Lyons, Miller and Riley, who belong to the International. Only four will be kept on the staff after the first two weeks of the season.

In future the guarantee will be \$50, and in case of rain \$30. Ottawa, paying \$100,000, will be in both cases as heretofore. Sunday games gates will be divided equally.

Here are the opening games in each city:

May 7th.

Hamilton at Brantford.

Ottawa at St. Thomas.

Peterboro at Erie.

Toronto at London.

May 14th.

Brantford at Hamilton.

Toronto at Ottawa.

London at Peterboro.

The mileage is approximately as follows: Ottawa, 9,265; Toronto, 4,422; St. Thomas, 4,335; Peterboro, 3,704; London, 4,400; Erie, 5,174.

The Hamilton delegates announced that the Ambitious Club would have a team ready for the opening game.

St. Thomas has bought Ruth, an Indian catcher from the Battle Creek, Mich., club, for \$400. The club needs a first baseman to round out the team.

At the meeting in Toronto yesterday the representatives of the Hamilton Club, M. R. Robinson and A. L. Garthwaite announced that the season would open in the middle of May. They were not sure of the date that would be set to none in the Canadian League, but they failed to announce just where the park would be situated. The ground on Barrington street that the Hamilton club has secured an option on is about the best location that can be found, and it is more than likely that this will be the spot where the park will be built.

Manager Yates will be in town shortly after the first of next month, and the players already signed up will arrive some time after. The new ball park that the club intends building will be ready by the 15th of April, so it is more than likely that the team will practice at one of the old ball parks.

The schedule which was drawn up yesterday at Toronto was more than satisfactory to everyone present, but it was revised, as the one drawn up at the time that the team was anything but satisfactory to several teams in the Canadian League.

Ridley Team Won From Highfield

Neither Team Scored in the Last Half of Game.

A very fast and interesting game of hockey was staged at the Alert Arena field intermediates lined up against a team from Ridley. The game was on for 4 to 3, in the early stages of the game Ridley started in at a very fast clip, and it looked as if they would be returned the winners in the first six minutes of play, but the Highfield boys pulled themselves together and before the half-time whistle blew they had scored three goals, but Ridley had two to 3. In the second half of the game the fast and close playing prevented both teams from scoring. First Highfield would take the puck to the goal, and the second time Ridley would take a shot, but thanks to the good goal-keeping of Rochester, the Ridley team was unable to score any goals in the last half, while the fast play favored the same, and the final score was 4 to 3, with the score four to three in favor of Ridley. The game was a hard game for Highfield, and their checkers were not sympathetic for holding the Ridley team down to four goals. The team, especially Finlay, Mitchell and Ham, played well, and the last two periods were very evenly matched. The teams lined up as follows:

Ridley.

Goal—Weaver.

Rockowitz—Right defence.

Saunders—Left defence.

Simpson—Rover.

Finlay—Brook.

Mitchell—Left wing.

Ham—Right wing.

Robertson—Alexander.

The game was handled by Beck to

the satisfaction of all present.

How the goals were scored:

1. Ridley—1—Brook, Irvin, Folger and Turnbull.

For Highfield, 3—Finlay, Mitchell and Ham.

Knocking Down the Ten Pins

The following is the score of the Three-Man League in the YMCA bowling alley:

Sheaton 185 190 189 163 178 190 190 188 182 171 168 188

Veale 123 158 182 137 140 697

F. Cooper 181 179 160 150 181 867

144 150 159 194 598 325 252

Donnell 147 140 127 137 140 697

Kilip 182 182 129 151 180 881

147 160 150 150 181 867

457 566 393 414 507 2340

Mr. J. F. Lawden

In the report of the City Checker Club members gathered at the Canadian Club on the 10th of March, Mr. Thos. Curtis for the championship of the city, and Mr. J. F. Lawden, president of the Dominion Checker Association, was the gift of Mr. John F. Lowden, of Toronto, President of the Dominion Checker Association.

Mann Cup Dates

Vancouver, March 12.—J. Lally of Cowichan, president of the Mann Cup, D. Mann Gold Cup, which represents the Canadian Cup, and the Mann Cup, arrived in the city yesterday and will remain here until Saturday. The Canadian Cup will be held on the 10th of March, and the Mann Cup on the 11th. If the V. A. C. wins they will meet the Vancouver Amateur Athletic Association on June 21 and July 1.

The selection of a referee for both series was left to the trustees.

Sailed To-day

(By Times Special Wire)

New York, March 12—J. Deane, D. Tracy, and W. C. Robertson, who are the new members of the Canadian Cup, and Fred Herschhoff, twice a runner-up for the same title, sailed to-day for the same purpose. They will compete in the early season matches for the English amateur championship.

The game was handled by Beck to

Burnley Won From Sunderland Team

35,000 People Saw Soccer Game at Burnley.

(By Times Special Wire)

New York, March 12—A London cable to the Tribune says:

The replayed English cup tie between Burnley and Sunderland took the fire, 25,000 excited persons here yesterday. Each side scored a goal at half-time, but Burnley secured the victory, 2 to 1, by a goal scored desperately to keep their powerful rivals out, beat them amid tremendous excitement by a score of 2 to 1.

The replayed tie between Sheffield United and Manchester City will be played this afternoon.

Small Scores Made at Buffalo Tourny

Kreiss Sign to Still Lead With 2596 Score,

Buffalo, March 12.—The fourteenth annual, and one of the biggest shows ever held by the American Bowling Congress, is moving along smoothly at the Broadway Auditorium, although the popular contests have been but three days.

The tournament is entirely due to the system used by Secretary A. L. Lanigan. No official was ever blessed with a better and sturdier working force than is found in the American Government census of 1910.

There are too long and every question answered so fully.

They are unknown part of the game, but are simply indispensable to the tourney's success.

LIBERAL FIGHT FOR FARMERS

A Call For Free Agricultural Implements.

STRONG PLEAS

But Government Declares Against the Proposal.

March 11.—The Liberal party in the Commons to-day declared itself unanimously for the abolition of the duties on agricultural implements. Six weeks ago they placed themselves on record for free wheat and its products. To-day's further tariff declaration was a logical sequence. The Government majority voted down the proposal, but the Liberal party, which had voted down the free-wheat resolution, the same day, argued that they had voted down the free-wheat resolution. The new familiar excuse for the Government's attitude was again heard: "Any tariff changes necessary will be announced 'in due course.'

The vote was taken shortly before 2 o'clock this (Thursday) morning, and Mr. Knowles' resolution was defeated by a straight majority of thirteen.

To-day's resolution, proposed by Mr. Knowles, was dismissed so far as the Government was concerned by a "ten minutes" speech by Premier Borden, and a final non-committal by side-stepping by Hon. Arthur Meighen. The speech was delivered in a decidedly hostile attitude toward the resolution, took refuge behind the old claim that in the present circumstances the resolution constituted a motion of lack of confidence in the Government, and declared that the time for the budget speech was brought down.

A MARKED CONTRAST.

The attitude of the Prime Minister today was in marked contrast to that assumed by him yesterday when another phase of the budget was being discussed. Yesterday, J. J. Carrick, the Minister of Finance, argued upon the Government the necessity of providing a bounty for the encouragement of the iron and steel industry. Carrick had already been pledged to abolish altogether the duties on agricultural implements, but simply to lessen them.

Mr. Carrick's speech was a decided hostile attitude toward the old claim that in the present circumstances the resolution constituted a motion of lack of confidence in the Government, and declared that the time for the budget speech was brought down.

NOT LIKELY TO BE GRANTED.

To-day's resolution was of an entirely different character. There was no reference to the budget, but a marked contrast on the Opposition side for assistance either in the form of bounty, or of protection in any shape. The budget speech was fair field and no favors. But the resolution which they received was of a very different character to that proposed by the advocates of higher protection, and more bounties for the steel industry yesterday. The answer, if it can be called that, was that the farmers of the west need look for no assistance along the lines mentioned from the present Government, and that any further agricultural implements would not be placed on the free list.

The Finance Minister raised a new spectre in his opposition to the demand. He declared that with free trade in agricultural implements there would be a marked reduction in the value of Canadian agricultural products, and that the Canadian manufacturers would not deal, and which would raise the price of the products.

The case for the abolition of the duty was presented by members of rural districts, and by the members of the Dominion. They showed conclusively that the agricultural implements industry was not doing well in the "island of the world," and that under long protection a reasonable hold on the home market, and that it was not only competing with all the manufacturers of the world, but on the markets of the world. In fact, it was not only competing with all other countries, but was selling at a lower price than any other country than on the home market. The only reason for maintaining the duties, they said, was that the Canadian manufacturers should be able to charge more to a person who might seek to say a word on his behalf.

BOUNTIES VS. BURDENS.

Members of the Liberal party of Edward Island; L. A. Lapointe, of Kamouraska; W. A. Bachand, of Lévis; and Dr. Michael Clark, of Red Deer, followed with brief, but trenchant arguments in support of Mr. Borden's resolution.

Mr. Borden's speech was a significant contrast between the tariff attitude of the Government supporters and the supporters of the resolution. He said, "Bounties for the manufacturers and bounties for the farmers."

Mr. MEIGHEN SENSES TO SQUARE HIMSELF.

Mr. Knowles presented his motion amidst Liberal cheering on the Government's proposal to go into supply. It called for the abolition of all duties on agricultural implements. The Moose Jaw man made a telling speech in support of the resolution. Conditions in Canada were truly poor, so far as the financial position of the country was concerned. What it was proposed to give bounties to the iron and steel corporations there were several mineral speakers here to tell us that the financial depression had been sorely felt in the iron and steel industry, as well as by their colleagues in the east. There was no reason why the farming community should be longer taxed to build up farms for the iron and steel manufacturers. The growth of agricultural implements for Canada testifies to the fact that the Government's policy of free competition, and the cost of stand up competition, and the time had arrived to have their protection removed. In addition to the financial depression, the iron and steel manufacturers had received no less than \$368,165 in drawbacks. This was a pure bonus to the iron and steel manufacturers. The growth of agricultural implements for Canada testifies to the fact that the Government's policy of free competition, and the cost of stand up competition, and the time had arrived to have their protection removed. In addition to the financial depression, the iron and steel manufacturers had received no less than \$368,165 in drawbacks.

READY TO PAY THEIR SHARE.

"How, then, do the farmers do their duty?" asked Mr. J. H. Bunnham (West Peterborough).

"They want to pay their share, not

more than their fair share," retorted Mr. Knowles.

"They want their land for nothing, and now they want to pay nothing," put in Mr. F. R. Lator (Hamilton).

"They want to get into a tariff discussion," warned Mr. Knowles. "He'll get lost if he does."

"None ever says a word for the farmer he gets sneered at from the Government benches," quoth Mr. Robert, "but the time has come when the farmer has got into a tariff discussion."

Mr. Knowles quoted figures to show that the products of the Cockshut Pier Company were sold in the United States at 50 per cent less than in Western Canada. That industry, at least, needed no more protection.
